Greetings;

This year marks the 50<sup>th</sup> anniversary of the Pennsylvania Council on the Arts, your state arts agency. For 50 years the PCA has been supporting the organizations, programs and projects that bring all the arts to our fellow Pennsylvanians. We are especially proud of the support we have provided to enable young people to experience their first play, concert or exhibition and to make their own creations.

It is also the 20<sup>th</sup> anniversary of Prime Stage, an organization we have been proud to support year after year. I want to congratulate Prime Stage on its 20th anniversary season of bringing literature to life. Your unique mission has made an impact not only on the arts but the education of many young people, adults, and artists through your productions and programs.

Here's to another 20 years for both our organizations and the partnership that brings the arts to our fellow citizens.

Sincerely,
